

# INTEGRATED POOLS

A HERITAGE POOL IS ALWAYS WORTH THE WAIT

SWIMHERE.COM | 843.762.3417

# WHY CHOOSE HERITAGE POOLS?

The answer is simple: expertise. We've been crafting luxury pools in the Charleston area since 2004. Owned and operated by Michael Gesmond, South Carolina's only Certified Master Pool Builder & Design Professional, our team is driven by an unwavering commitment to quality, innovation, and your satisfaction.

But we're not just experts in pool building in general; we're experts in building pools in Charleston. We understand that the backyards of downtown Charleston pose unique challenges. Many are oddly shaped, and you don't always know what you'll find under the surface. You don't have to sacrifice your dream of owning a pool simply because of your location. If it's at all possible to incorporate a pool into your backyard, we are the team that can make it happen.

# WHAT IS AN INTEGRATED POOL AND WHY IS IT THE SOLUTION?

An integrated pool is a type of swimming pool that is designed and built to fit perfectly into your outdoor space, taking into account the existing layout, landscaping, and architectural style. It is 'integrated' in the sense that it appears as a natural extension of your home, rather than an afterthought or standalone addition. These types of pools work exceptionally well for small or unusually shaped yards where you can't picture a standard rectangular pool.

Heritage integrated pools are highly customizable. You can add special features like elevated sections for more privacy or an acrylic wall for a distinctive look. With an integrated pool, you'll have a stunning, easy-to-maintain pool that's uniquely yours.

# I WANT ONE. HOW DO WE GET STARTED?

Great choice. We'll start, of course, by taking a look at your yard. We typically recruit a landscape architect to scope out your property with us so that we are armed with all the knowledge we need to start brainstorming your design.

Then, creativity is key. Whereas other pool builders may shy away from the task and dash your dreams of a private pool, our Certified Master Pool Builder & Design Professionals have an extensive background crafting unique shapes for integrated pools. He isn't afraid to use his imagination to draft up plans you'll love.

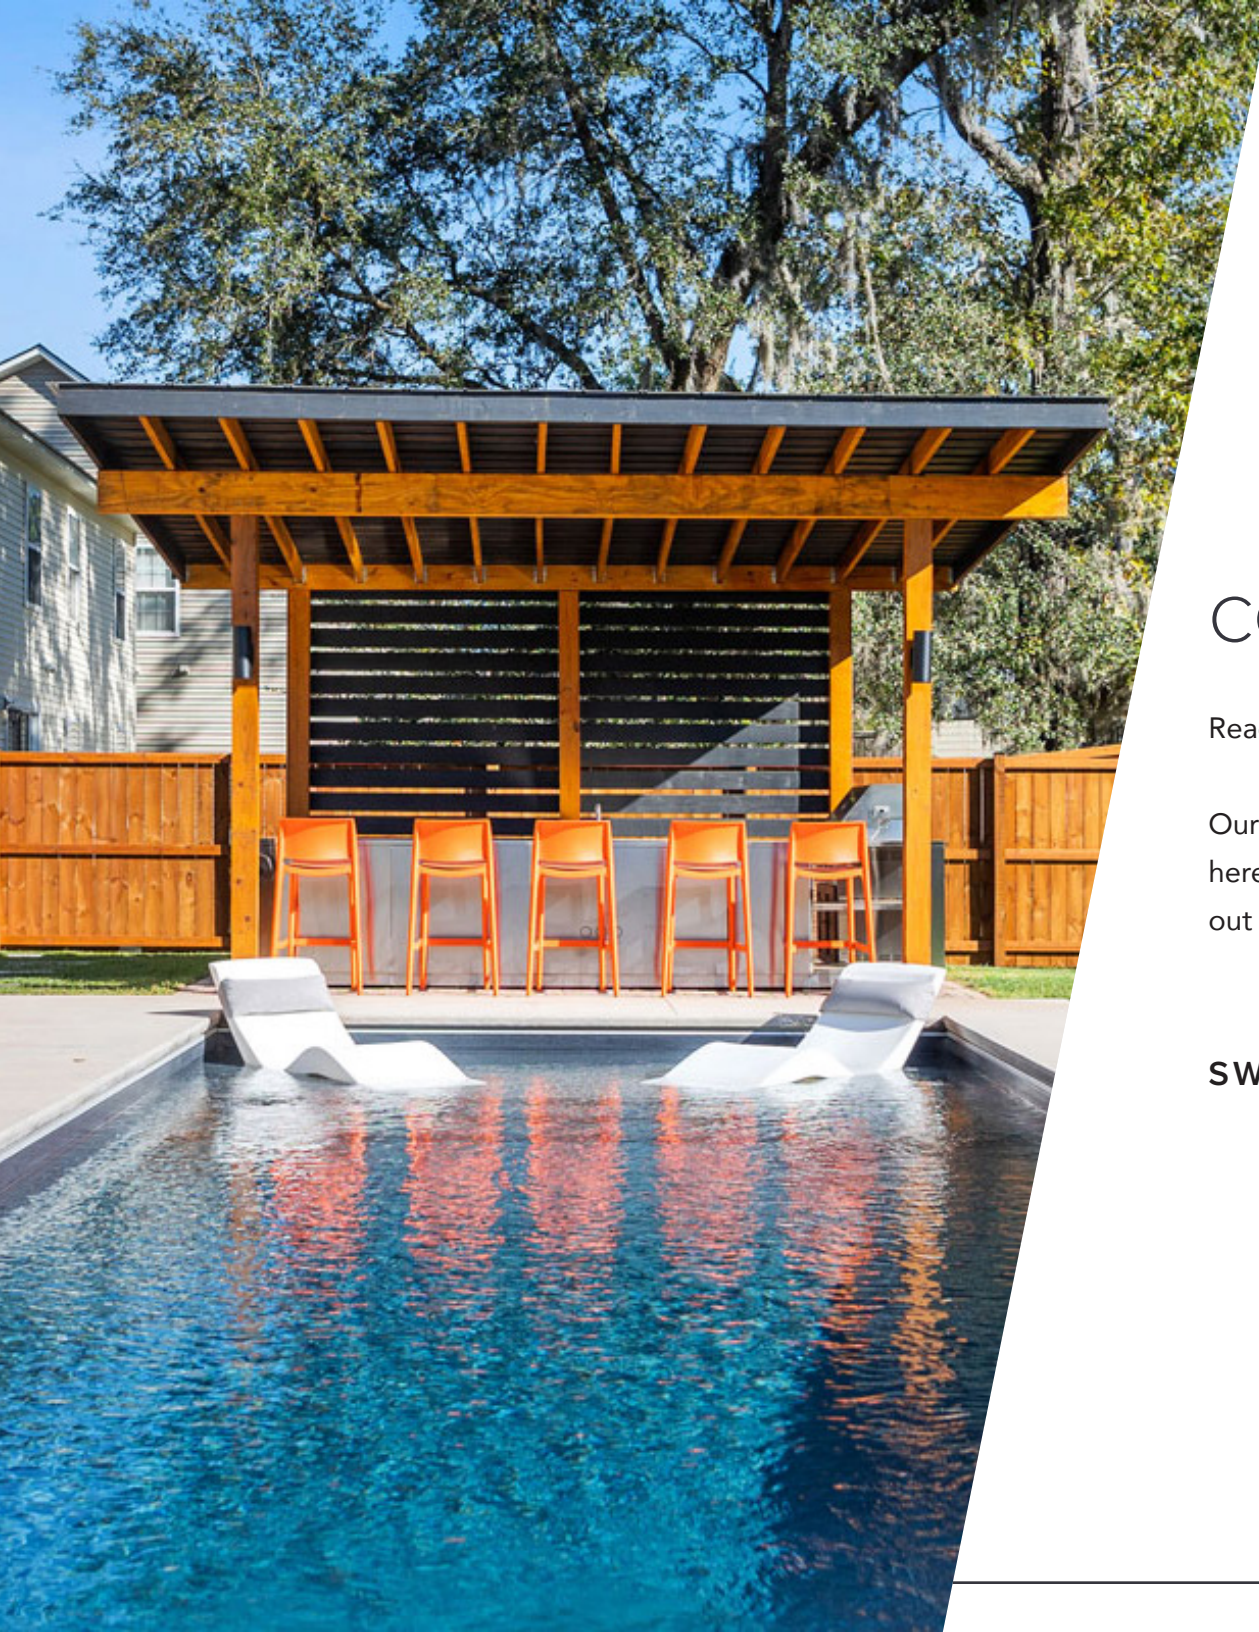

# THE BEST PART

While you may argue enjoying your fully-completed pool is the best part, picking out the features you want comes pretty darn close.

Choose from an array of stylish tile options, durable pool coping, and sleek deck materials. Enhance your pool with luxurious features like jetted spas, water features, and Lautner or champagne edges. We'll build your pool to fit your space, and you'll pick your finishes to fit your vision.
